DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7 & 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Cowans (US Patent No. 6,499,535). Cowans discloses a refrigeration system for a temperature control unit and comprising: a temperature control system (10), a compressor (14), sensors (34), sub-cooled refrigerant and a control system (40) which operates a heating & cooling device (see column 5, lines 45-60).

Allowable Subject Matter

Claims 1-6 are allowed over the prior art of record.

Claims 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
